

TECHNICAL OPERATIONAL RESPONSE

Operator: TNT Date: 08 May. 07 ATA: 53 Validity: One Off Approval
Aircraft Const No: Fleet Aircraft Regn Fleet Fax Ref:

The following data is provided by BAE SYSTEMS(Operations) Limited as the Type Certificate Holder. It represents a deviation from the Type Design Standard and as such requires the agreement of your local Airworthiness Authority. BAE SYSTEMS (Operations) Limited is an EASA Approved Organisation - EASA Part21 Approval EASA.21J.047

Subject: A-Glaze Surface Protection

Reason for TOR:

TNT request permission to use A-Glaze Total Surface Protection System for sealing and polishing their A/C exterior.

Advice / Instruction:

BAE SYSTEMS have reviewed and agreed the Technical content of TNT's proposal. BAE Systems have no Technical Objection to A-Glaze Total Surface Protection System being used for applications as detailed.
Note that this treatment should NOT be applied to non-painted areas of the livery.
