How to Apply Interior Leather Vinyl: [Link](#)

Exterior Preparation Stage

- Ensure vehicles are out of direct sunlight and cool to touch.
- Pour contents of *AGlaze AeroTech Ceramic Exterior* into a clean and uncontaminated pump spray or supplied spray bottle.
- Wash vehicle as normal and thoroughly rinse off detergent or shampoo.
- Cross contamination of *AGlaze AeroTech Ceramic Exterior* with detergent or car shampoo will create a haze finish and will require a repeat wash.

Exterior Application Stage

- Apply *AGlaze AeroTech Ceramic Exterior* very sparingly. Use a maximum of 100ml or 3 oz per vehicle.
- Spray a small amount of *AGlaze AeroTech Ceramic Exterior* directly onto clean painted surface.
- *AGlaze AeroTech Ceramic Exterior* can be applied on a wet or dry surface. Wet surface preferred.
- Use the supplied *Blue Waffle* patterned towel and buff thoroughly to achieve a clean glossy surface.
- Any streaks or smears can be removed by buffing with a clean, slightly damp cloth.

Notes

- Do not over apply chemical: Use a maximum of 100ml / 3 oz per application.
- Do not apply to windshield or glass.
- Ensure vehicles are clean and free of detergent and car shampoo before applying sealant.
- Do not apply to a hot vehicle or in direct sunlight.
- Always use soft & clean drying towels to dry vehicles.
- Provided *Blue Waffle* towels can be washed and reused up to 5 times for best results.
- *Blue Waffle* towels are provided for exterior use only.
- Avoid cross contamination: Do not use towels that have been used for other products.
- For advice or assistance call 866.317.7701

Interior Preparation Stage

- Ensure vehicles are out of direct sunlight and cool to touch.
- Pour the contents of *AGlaze Fabric Protector Interior* into a clean and uncontaminated pump spray or supplied spray bottle.
- Ensure interior is clean and dry.

Interior Application Stage – Cloth Seats

- Spray *AGlaze Fabric Protector Interior* evenly onto carpets and seats.
- Use the provided clean *Blue Aqua* microfiber cloth to wipe off any overspray.
- Using the same *Blue Aqua* microfiber cloth spray *AGlaze Fabric Protector Interior* on cloth and wipe over door panels and trim.
- DO NOT spray *AGlaze Fabric Protector Interior* directly onto door panels or trim.

Interior application Stage – Leather Seats

- Spray *AGlaze Fabric Protector Interior* evenly onto carpets.
- Use a clean *Blue Aqua* microfiber cloth to wipe off any overspray.
- Spray *AGlaze Fabric Protector Interior* onto the same microfiber cloth and wipe over seats, door panels and trim.

Notes

- Do not over apply chemical: Use a maximum of 100ml or 3 oz per vehicle interior application.
- Do not spray onto windows or steering wheel.
- Ensure the interior is clean and dry before applying.
- Do not apply to a hot vehicle or in direct sunlight.
- *Blue Aqua* microfiber towels are provided for interior use only.
- Avoid cross contamination: Do not use towels that have been used for other products.
- Allow 24 hours to cure.
